

## Disk Jockey Service

### What makes us different?

We have over 20 years of experience entertaining audiences through DJ services and sound & lighting services for local bands. These many years of experience mean that during the opening moments of an engagement we can read the crowd and, when everything is ready, get them up and dancing quickly.

#### How we operate...

We never forget you are our customer and our goal is to make our performance everything you want and expect.

We will professionally make all introductions and announcements needed at your event.

The D.J./Emcee at your event will be appropriately dressed and maintain a professional appearance and demeanor.

You select in advance the type of music and any songs you do or don't want played at your event. If you would like a piece of music we don't have, we will make every effort to obtain it before your event.

We will gladly take requests from your guests and play them as long as they fit into your music guidelines.

For dancing, we try to keep the music loud enough to dance to but not so loud that your guests can't converse without shouting, but you *always* have ultimate control of how loud we play. Background/dinner music is much quieter.

A wireless mic will be available at your event in addition to a wired mic.

#### Weddings are a specialty...

We truly enjoy performing at wedding receptions. We'll work with you, the photographer, hall staff and others to give you a smooth, organized reception. We want you to be able to relax and enjoy your very special day!

#### Our Equipment...

We use only **BOSE®** professional speaker systems for exceptional sound quality.

All of our equipment is professional grade with backup equipment on site.

All equipment is mounted in a black road case to maintain a clean and professional appearance.

We use only club-grade intelligent lighting instruments and controllers for a very colorful and dynamic light show that moves with the music.

Lighting equipment is mounted on a black truss system. Wiring is neatly routed to maintain a professional appearance.

#### Our Music Library...

All music played from radio station software. We have over 33,000 songs and over 1,600 music videos dating from the 40's to today in our library that we bring to *every* event. We are adding new music to our library constantly.

#### Our Packages...

We offer three tiers of sound system packages and three optional light show packages. These options allow us to provide a service that fits the hall, your needs and your budget.

#### What do we need from you?

To book us for your reception you will need to read and sign a contract. A deposit of \$100.00 is required at that time. In the event you need to cancel, the deposit is fully refundable as long as we have two weeks notice in writing.

You will also need to fill out a reception questionnaire. This gives us detailed information about your wedding. This form is where you tell us what kind of music you would like played and any specific songs you do or don't want played. You can consult our music list for help on this.

We will need access to the hall at least 1½ hours before your guests begin to arrive, preferably longer.

If you have contracted the optional deluxe light show we will need at least 3 hours before your guests begin to arrive. We may need to survey power available at the hall before accepting the contract for deluxe lighting (many halls can't supply the power we need to run this show).

The balance of the performance fee is due *before* the reception begins. Extra hours can be purchased in advance or that night. The extra hour fee is dependent upon the package you select and will be defined in your contract.

Take the first step - call us!

## DJ Service Packages

**Package A - Music for small venues & groups of up to 135 guests** - This economical package is best for small events of up to 135 guests or for larger events requiring only background music. Price: \$450.00. Extra hrs. \$75.00 ea. The std. lighting pkg. can be added for \$50.00.

**Package B - Music for medium sized venues & groups of up to 300 guests** - This package will provide high-quality music for most events and *includes* our std. lighting package. It's a good choice for medium sized indoor or outdoor events. Price: \$550.00. Extra hrs \$90.00 ea.

**Package C - Music for large venues and groups of over 300 guests** - This package is best suited for medium to large events or events requiring higher volume levels and exceptional bass. This package *includes* our std. lighting package. Price: \$700.00. Extra hrs. \$125.00 ea.

**Ceremony Sound System** - A system designed to provide amplification and music for a ceremony in a separate location from the reception. Ideal for outdoor weddings or venues without existing sound systems. Price: quote based on needs

**Music Video Option** – See the same videos found on VH1, CMT, MTV or GAC at your event on our projection system through our **BOSE** sound system. Price: add \$100.00 to DJ package price.

**Video Projector Option** - We set up a video projector & screen at your reception to play programming of your choice. Many brides use this for slide shows from the bride & groom's childhood years but you can use it for whatever you would like ( i.e. DVD, VHS, CD, PC). Price: add \$65.00.

### Standard Lighting Package

This option adds an intelligent lighting system to the sound service. It is best described as a tasteful, colorful display that won't dominate the event and is great for wedding receptions. It's included with packages B & C.

Price: add \$50.00 to DJ package price.

### Deluxe Lighting Package

This option adds 4 hours of continuous lighting produced by our extensive mobile club-quality intelligent lighting system. It really adds life to an event. Because of the extra power needed for the equipment, we may need to survey the hall before accepting a contract for this option.

Price: add \$200.00 to DJ package price.

**Generator Rental** – We can supply a 3,000 Watt generator with your DJ package for outdoor events when no power is available. Price: add \$50.00 + \$2.00/Hr. for fuel to pkg. price.

**Set-Up Fees:** For some reception halls there is an additional set-up fee above the package price. These are predominately large hotels where it is more difficult and time-consuming to move our equipment in and get it set up. There is no set up fee for most locations. If you are concerned about this, please call us and we'll let you know if a set up fee applies to your chosen hall.

Prices are subject to change without notice. All DJ packages include 4 hours of continuous music. Additional hours can be purchased in advance or at the event.
